About this Game Summary Using the bullet time feature, you can slow time down for a maximum of 5 seconds in order to ensure that you deliver the best headshot with no chance of getting hit. The game is designed to feel like a movie, the aim is to show you the scene in movie-style before you get a chance to take the shot. There are a lot of different weapon types you can use such as a pistol, rifle, sub-machine gun and machine gun to name a few. Each weapon type has its own strengths and weaknesses when it comes to accuracy, damage, reload time and rate of fire, making it the perfect weapon for you to use in any situation. The weapons also have unique features such as a fully automatic function, silencer, scope and more. You can choose to play as either the main character or a spy from another country. The game has been played by many people who have enjoyed it to the end. You can play as either the main character or a spy from another country. There are a lot of different weapon types you can use such as a pistol, rifle, sub-machine gun and machine gun to name a few.
