Ratings: OS: 5 4.5 App: 4.5 Add-ons: 4.5 Overall: 4.5 Screenshots: Consumer iOS reviews, January 2017 BEST & WORST BEST OF THE BEST review by BEST OF THE BEST I couldn't really find an issue with this app. I might only be doing half of the things, but I just find it very helpful & efficient. The tabs function is useful when there are too many apps/lots of tasks, or when switching from app to app. It's basically just another extension of that. It's actually more efficient to have this app in the dock than it is to keep my finger on that app switcher button over and over again. I also like that you can use the Command Bar and the spaces to fine-tune things. The only problem I found with this app, other than how expensive it was, was that it locks up sometimes. You can't have more than one tab open at once, and apps go bye-bye once you close out of it. I don't have this issue very often, but sometimes it gets frustrating. Other than that issue, though, I think this app is perfect! BEST OF THE WORST
